

09:20 - 09:50 **Registration**

09:50 - 10:10 **Welcome and Opening**

10:10 - 10:30 **Gustavo A. Fernández-Alcober** “A unifying approach to verbally poor groups”

10:30 - 10:50 **Mattia Brescia** “On a class of normal endomorphisms of groups”

10:50 - 11:10 **Claudio Quadrelli** “Hilbert 90 and Bogomolov’s conjecture for pro- p groups”

11:10 - 11:40 **Coffee Break**

11:40 - 12:00 **Maria Ferrara** “Groups with all subgroups permutable or soluble of finite rank”

12:00 - 12:20 **Giovanni Falcone** “Nilpotent Lie algebras admitting a compact subgroup of automorphisms”

12:20 - 12:40 **Ulderico Dardano** “Still on groups with many generalized normal subgroups”

12:40 - 15:00 **Lunch**

15:00 - 15:20 **Marco Trombetti** “Groups with restrictions on non-permutable subgroups”

15:20 - 15:40 **Yerko Contreras Rojas** “Bounds on non- p -soluble length in finite groups with Engel conditions in the Sylow subgroups”

15:40 - 16:00 **Ilaria Castellano** “Subgroups of hyperbolic totally disconnected locally compact groups of low cohomological dimension”

16:00 - 16:30 **Coffee Break**

17:10 - 17:30 **Fausto De Mari** "Groups with many permutable subgroups"

20:00 **Social Dinner at "Ristorante La cianciola"**

Saturday 26th

09:50 - 10:10 **Kıvanç Ersoy** "Free profinite product of prosolvable groups"

10:10 - 10:30 **Piroska Csörgő** "Every Moufang loop of odd order has nontrivial nucleus"

10:30 - 10:50 **Francesco Fumagalli** "On the holomorph of finite semisimple groups"

10:50 - 11:10 **Albert Garreta** "Equations and first-order theory of one-relator monoids and of word-hyperbolic monoids"

11:10 - 11:40 **Walk**

11:40 - 12:40 **Poster session & Aperitivo**

12:40 - 13:00 **Closing**
