Groups and Topological Groups

Martin-Luther-University Halle-Wittenberg
February 2023

Program

Friday, 3rd February 2023

13:30-14:00	Welcome	
14:00-14:40	Mario Galici *University of Palermo*	Extensions of Steiner Loops of Projective Type II
14:50-15:30	Keivan Mallahi-Karai *Jacobs University Bremen*	Polynomiality of the faithful dimension for nilpotent groups over finite truncated valuation rings
15:40-16:15	Coffee break	
16:15-16:55	Giovanni Falcone *University of Palermo*	Uniminimal and unimaximal algebraic groups
17:05-17:25	Wolfgang Herfort *University of Vienna*	Archipelago groups are locally-free
19:00	Dinner	at the "'Le Feu"'

Saturday, 4th February 2023

09:15-09:55	Martin Van Beek *University of Manchester*	Fusion Systems and Rank 2 Simple Groups of Lie type.
10:05-10:40	Coffee break	
10:40-11:20	Edoardo Salati *Dresden University of Technology*	Large subgroups from a purely localpoint of view: an example
11:30-12:10	Agota Figula *University of Debrecen*	Classification of a family of 4-dimensional anti-commutative algebras and their automorphisms

All talk will be in "Hörsaal 1.04" at Von-Seckendorff-Platz 1.
The Welcome and Coffee breaks will take place in Theodor-Lieser-Str. 5.
