Program

26.1., 13.00	Arrival, reception and coffee	
26.1., 14.00- 14.45	Dioguardi Burgio	<u>Toroidal groups, generalized Jacobians and non-totally real number fields</u>
26.1., 15.00- 15.45	La Rosa	<u>Biderivations of complete Lie algebras</u>
26.1., 16.15- 17.00	Serwene	<u>Fusion Systems and their applications in block theoretic conjectures</u>
26.1., 17.15- 18.00	Questions and comments	
26.1., 19.00-...	Dinner	

27.1., 9.00-9.45	Mancini	<u>Weak representability of actions: a study from groups to non-associative algebras</u>	^
27.1., 10.00-10.45	Galici	<u>An extension formula for right Bol loops arising from Bol reflections</u>	
27.1., 11.15-12.00	Schulz	<u>On a Group Action of Subgroups of PGL2 on Monic Polynomials</u>	
27.1., 12.15-13.00	Falcone	<u>Classic Jacobians of elliptic curves over local fields as generalized Jacobians</u>
